

# Classic **BIO**

A Product by **Classic Global Ventures**

**Made From Sugarcane Bagasse Pulp**  
**Plates | Trays | Lids | Bowls | Clamshell | Containers**

# ABOUT CLASSIC BIO

In today's environmentally conscious world, consumers are increasingly seeking products that combine sustainability with style. Eco-friendly plates and bowls made from sugarcane bagasse perfectly meet this demand. Not only do they offer a sustainable alternative to traditional disposable tableware, but they also bring a modern, aesthetic appeal to any setting.

**The Rise of Eco-Friendly Tableware** Traditional disposable tableware, primarily made from plastic and paper, has significant environmental drawbacks. Plastic products contribute to long-lasting pollution, while paper products often involve deforestation and intensive water and chemical use. As awareness of these issues grows, there is a pressing need for sustainable alternatives. Enter sugarcane bagasse – a versatile material derived from the fibrous residue left after extracting juice from sugarcane. This byproduct, once considered waste, is now being transformed into beautiful and functional eco-friendly plates and bowls by innovative companies like Classic Global Ventures.

## The Future of Tableware

As we move towards a more sustainable future, the demand for eco-friendly plates and bowls will only continue to grow. Sugarcane bagasse offers a perfect blend of sustainability and style, making it the material of choice for modern tableware. By choosing products from Classic Global Ventures, you are not only enhancing your dining experience but also making a positive impact on the environment. Embrace the future of tableware with sugarcane bagasse and join us in our commitment to a greener, more beautiful world.

## Perfect for Every Occasion

Sugarcane bagasse tableware is ideal for home use, offering a sustainable option for family meals, picnics, and parties. The elegant design ensures that you don't have to compromise on style while making an eco-friendly choice. **Businesses:** For restaurants, cafes, and catering services, adopting bagasse tableware demonstrates a commitment to sustainability. **Events and Celebrations:** From weddings to corporate events, sugarcane bagasse plates and bowls add a touch of sophistication while aligning with green event practices. Their biodegradability ensures that clean-up is environmentally friendly, leaving a positive impact long after the event is over.

# Our Products Features

Compostable

**100% COMPOSTABLE**

COMPOST WITH PEACE OF MIND  
IN A MUNICIPAL OR  
COMMERCIAL

**PFAS  
FREE**

**SAFEGUARD YOUR HEALTH**

WITH OUR PFAS-FREE PRODUCTS.

**ECO FRIENDLY**

NO TREES WERE USED,  
MADE WITH SUGARCANE BAGASSE.

**ULTRA DURABLE**

HEAVY-DUTY CONSTRUCTION,  
RESISTS HEAT AND GREASE.

## Our Commitments

Our core philosophy is centered on building long-term, value-driven relationships with our clients through business practices founded on Integrity, Commitment, and Excellence. From purchasing and production to logistics and dispatch, we have carefully structured our operations to prioritize strong relationships with our clients and stakeholders. To enhance the ease of doing business, we offer 24/7 operational infrastructure and dispatch services, supported by India's largest warehouse network, ensuring maximum convenience for our clients.

## Key Facts

**Current Capacity:** 24 tons per day across 4 units in India.

**Expandable Capacity:** 30 tons per day for future growth.

**Global Reach:** Supplying 50-55 containers per month to 18 countries worldwide.

**Warehouses:** Strategically located in North, South, East, and North East India for efficient distribution.

**Workforce:** 500+ dedicated employees, operating 24/7.
